

**REISSUE APPLICATION
DECLARATION BY THE ASSIGNEE
37 C.F.R. §1.175**

I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I am authorized to act on behalf of the assignee **Center for Neurologic Study, La Jolla, California**, and the title of my position with said assignee is **DIRECTOR**.

The entire title to the patent identified below is vested in said assignee:

Names of Patentees: **Richard Alan Smith; Jonathan M. Licht**

Patent Number: **5,863,927**

Date Issued: **January 26, 1999**

Title: **DEXTROMETHORPHAN AND AN OXIDASE INHIBITOR FOR TREATING INTRACTABLE CONDITIONS**

I believe said patentees to be the original, first, and joint inventors of the subject matter that is described and claimed in said patent, for which reissue is sought on the invention entitled **DEXTROMETHORPHAN AND AN OXIDASE INHIBITOR FOR TREATING INTRACTABLE CONDITIONS**, the specification of which is attached hereto.

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in Title 37, Code of Federal Regulations, §1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, by reason of a defective specification.

At least one error upon which reissue is based is described as follows:

Because the original specification failed to properly reference prior, copending applications, U.S. Patent 5,863,927 did not receive the benefit of an earlier filing date to which it was entitled under 35 U.S.C. §120. Accordingly, absent the reissue, the patent may be invalidated by references are not properly prior art with respect to the patent.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicants.
